

March 2018 GREFC/BWOB Mission Trip Families

Aleida aka "Cuca" Home

This home build would be for a lady named Aleida who is also known as Cuca. She claims that she is known as being crazy in the community but she is a "happy crazy". There are 5 people that live in this home. Cuca, her mother (Victoria) and 3 children. The children are Jose (25 yrs), Francesca (9 yrs), and Kenny (2 yrs). The oldest son works as an agriculturist in the area. The build would be a tear down and rebuilt. The home was in very bad conditions and the porch roof was being held up by only two small pieces of re-barb.

Edward and Maria Louisa Home

This home build would be for Edward (husband) and Maria Louisa (wife). They have lived in this home 12 years. This home is very close to the edge of the river and next to the road. We would need an alternate location to build the new home as there is not enough space in the current location. They live in this home with 3 children, Mariani (10 yrs), Eduardo (7 yrs), and Eduarli (3 yrs).

Yovani and Morena Home

This home build would be for Yovani (husband) and Morena (wife). Yovani works as an agriculturist. They have 2 children and Morena is currently pregnant. The kids are Yover (10 yrs) and Yoanny (3 yrs). Morena was in the last month of her pregnancy when we visited them and she will be having a boy. This home is very close to Crilleda and Reyno's home and is on the top of the hill. We would look for land closer to the road to build this family a new home. The community leader Nena is in this picture with hat and grey t-shirt on.
