(Continued on the back!)

We want to be intentional in equipping and praying for you and your students this year as you parent in an ever changing culture. The more open you are the better we can do so. These responses will remain confidential and will only be used by the leadership for the purposes of prayer and giving priority to the types of resources we hope to equip you with as parents.

1) What topics or situations would you like to be better equipped to handle as a parent?

2) How would you most likely access parenting materials? (please rank, with 5 as most likely)

- Regular group discussions
- One time group discussions
- Facebook posts
- Emailed articles
- Book recommendations
- Other: _____

3) Where would you like to see each of your students at spiritually at the end of the year?
What steps would you like to see them take towards that end? (please be as detailed as possible)

4) How can we pray for you this year?

Don't forget to fill out 2019-2020 medical release forms for each of your students!
